

The Model 002D is a grooved-end ductile iron cast elbow with an integral 1" NPT drain.
The 002D was primarily designed for, but not limited to, used on fire protection standpipes

## Available Sizes

-2" through 8" (50 through 203 mm)

## Pipe Material

- Carbon steel, Schedule 10, Schedule 40
- For use with alternative materials and wall thicknesses please contact ARGCO.

## Maximum Working Pressure

- Up to 300 psi/20 bar

## Function

- Joins carbon steel pipe.
- Provides a rigid pipe joint designed to restrict axial or angular movement.

## CERTIFICATIONS/LISTINGS

Underwriters Laboratories, Underwriters Laboratories Canada, Factory Mutual.

## SPECIFICATIONS - MATERIAL

Housing Sections: Ductile Iron conforming to ASTM A 536, Grade 65-45-12.

## Housing Coating:

- Standard: Orange Enamel
- Available: Hot Dipped Galvanized

- Working Pressure is total, from all internal and external loads, based on standard weight (ANSI) steel pipe, standard roll or cut grooved in accordance with ARGCO specifications.
- The allowable pipe separation dimension shown is for system layout purposes only. ARGCO couplings are considere rigid connections and will not accommodate expansion or contraction of the piping system.
- When assembling ARGCO couplings onto end caps, take additional care to make certain the end cap is fully seated against the gasket end stop.
