

Master Break Lock (Key #197)

ITEM # 4599110

Keyed alike breakaway shackle padlocks restrict access to property and have a shackle that can be broken with a hammer blow in an emergency.

They're used in applications where the lock may need to be removed rapidly, such as on fire extinguishers and hoses and sprinkler shutoff valves.

These padlocks are keyed alike, so users can use the same key for different locks in a set.

Specs

Breakaway shackle - keyed alike

1-3/4" (44mm) wide laminated steel body for superior strength

Steel shackle provides strong cut resistance

Warded locking mechanism minimizes jamming from dirt and grime
