ARGCO

ROTHENBERGER.

SUPERTRONIC 2000 / SUPERTRONIC 2000 Economy

Power Threader

Quick and effortless production of safe precision threaded joints to approved standards

NPT dia. 1/2" – 2"

Universal threader, ideal for mobile use, for service and repair tasks in trade and industrial situations. Compact dimensions allow for use in difficult to reach positions.

- Dust tight casing with sealed lubrication:
Long lifespan, low maintenance
- Optimized gearing:
High performance output with minimal energy consumption

- Hardened teeth and jaws on support arm:
Secure grip in both turning directions

- Off-set die head mounting:
Threading possible even close to walls

- Direct seating with tension ring locking:
Die heads are held firmly in place

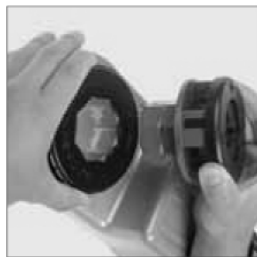

- Strong 1010 W Universal motor, double insulated with VDE and CEE, interference free:
Reliable, professional long-term use
- Threading speed 15-25 rpm, 60 rpm rapid reverse
3 X speed reverse – saves time

- Large mechanism for switching direction:
User friendly work

- High reduction gears with spur wheel teeth, 7 parallel gear shafts, each ball bearing mounted:
High, consistent level power transmission when fully loaded
- Compact gear housing with excellent overall size:
Ideal for difficult to reach positions (corners, shafts)

Inserting the die heads

Working in confined spaces

Gearing

NEW

Option for plastic-coated pipe

SUPERTRONIC 2000 Sets

Power Threader 1/2" – 2"

Set includes SUPERTRONIC 2000, forged pipe clamp (71280), ROFIX Adapter (71271), RONOL Thread Cutting Spray (65018), Precision Die Heads, plastic case

71259L

SUPERTRONIC 2000 Economy Set

Power Threader 1/2" – 1-1/4"

Set includes SUPERTRONIC 2000 Economy, forged pipe clamp (71280), Precision Die Heads, plastic case

71021
