

ANTIMICROBIAL CERTIFICATION LETTER

CERTIFICATION

ARGCO certifies that Tuf-Lube Gasket Grease (Formula 11-4) is a blend of soap and solid mica lubricants dispersed in a water/glycol solvent mixture. It is non-toxic and contains no petroleum or any other compound that has a marked deleterious effect on rubber gasket material. Tuf-Lube Gasket Grease will not support the growth of bacteria due to its slightly basic pH (5% solution pH~9) and it will not impart taste or odor to water in a pipe when used in accordance with ANSI/AWWA C600 and the pipe has been flushed according to ANSI/AWWA C651. It does not contain any addition anti-microbial agents. This formula is NSF certified to the NSF/ANSI Standard 61, Drinking Water System Components. It is intended for use in potable water systems and is so certified.
