

## Tuf Cut Dark with 2% active Sulfur

Sulfur added to prevent metal-to-metal contact, and reduce friction and heat build-up.

- Chlorine added as a catalyst to activate the release of sulphur at an even lower temperature.
- Better lubrication and heat dispersion characteristics prevent binding and catching of dies.

Premium quality metalworking fluid formulated as an all purpose medium and heavy duty metal removal oil. It is an ideal oil for use in the shop where a number of applications are present thus reducing the number of oils needed.

CONTENTS: Refined petroleum distillate, and blended with proprietary additives known to contain sulfur, chlorine, a lubricity additive and trace of silicone polymers.

Refer to SDS for additional information.

### Sizes:

- 1 quart (1010044)
- 1 gallon (1010043)
- 5 gallon (1010041)
- 55 gallon (1010040)

### VOC CONTENT

Volatile Organic Compounds:  
Minimal.  
2.5% or less than 20 grams per liter.
